Memini '85 is dedicated to two people who have devoted their years at Comprehensive to helping us solve our "four year puzzle." Both have showed us, through projects and experiments, that we can solve any problem with continuous betterment, one step at a time. While one is an active supporter of The Frolics and an advisor of the chemistry team, the other is strongly involved with our future enterprise, the computer. Through their efforts, our missing pieces have been secured in place. Taking into consideration the preceeding thoughts, we dedicate **Memini '85** with proud admiration to **Mr. George Kennedy**and **Miss Louise Lacoste.**

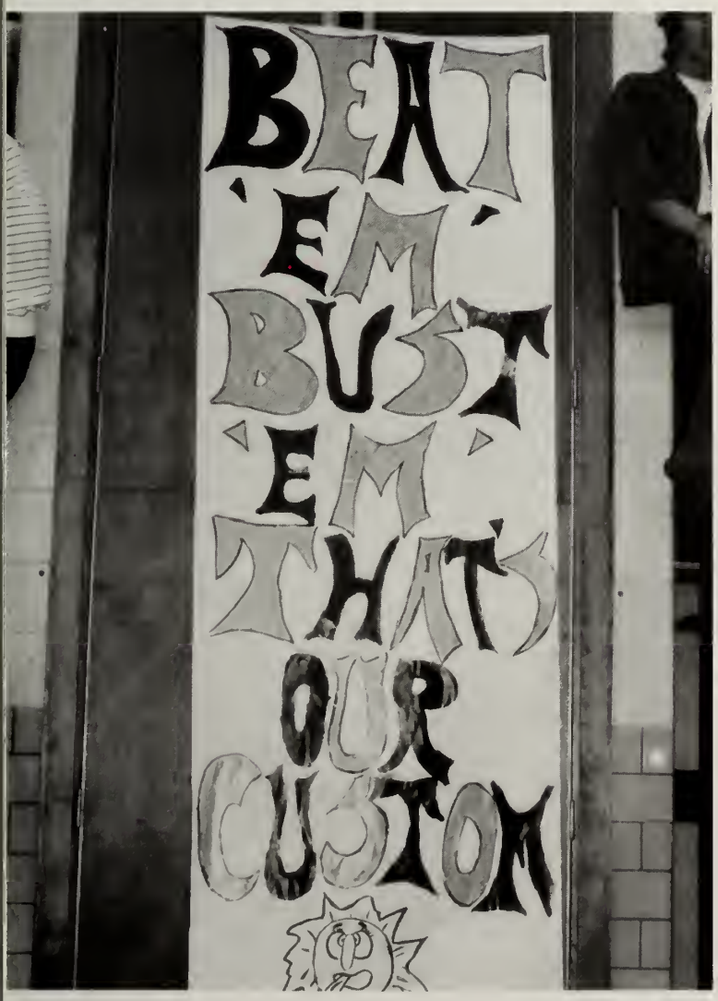
Puzzles:

Questions to be answered.
Problems to be solved.
Pieces to be fit together.

Reflecting on our past four high school years, we've seen the pieces of our puzzle come together.

As freshmen we found the pieces
to our own puzzle . . .
Why are we here?
Do we belong?
Will we fit in?

Slowly we began to assemble
the pieces discovering . . .
We do belong,
but where?
We have reasons to be here,
but what reasons?



We have solved a part of the puzzle . . .
made our lives more complete,
found we belong where we are needed.

But as we leave Chicopee Comprehensive,
we've discovered more pieces missing . . .
What will happen to us?
Where will we go from here?
What will we do?

We have found that life is one continuous puzzle.

Through our
friendships,
heartaches, and
accomplishments
the pattern of our lives has
emerged.

The puzzle is coming together, but the missing pieces are yet to be found in our future.

Our past four years have shown that we can handle the many problems that life poses.

We have completed our "four year puzzle," but we have just begun to solve the puzzle of life.

ADMINISTRATION

William Coscore, Superintendent of Schools

To the Class of 1985:

Society demands much of an individual. One is required to make adjustments to new places, new things, and to new people.

To a large degree one's ultimate goal, happiness, is determined by how well these adjustments are made. Adjustment does not necessarily mean the adopting of every new idea and concept that appears on the scene. Rather, it means the ability to scrutinize and evaluate these new concepts and, more often than not, to reject them. Rejecting something which is popular or fashionable is extremely difficult; this is a true test of one's character.

Refusal to give up old concepts which you know have been tried and tested is often very difficult when society begins to demand that you do just that. How well you run this course of accepting new ideas and retaining old concepts will determine in the final analysis your real character and values. This will determine your happiness as a human being.

William Coscore,
Superintendent
of Schools

To the Members of the Class of 1985:

I am honored to have the opportunity to extend my heartfelt congratulations to the Class of 1985.

In the last four years, you have successfully completed one phase in a lifetime of learning. I hope that whatever you take with you will help you to meet the challenges and make the adjustments in the ever-changing world of your future. May I offer my best wishes for health, happiness, and success in all your endeavors.

Herbert H. Curry
Assistant Superintendent

Herbert Curry, Asst. Superintendent

Carolyn Fitzgerald, Administrative Asst.

Steve: Your cooperative efforts were greatly appreciated and the future should bring you many rewards and happiness. Mitchell S. Kuzdzal

Education was and must continue to be the backbone of our democratic government and of our economic growth.

The myriad of negative, tumultuous incidents that we read, hear, or witness on a daily basis do have a definite impact on our daily lives. However, we must develop a sense of trust, understanding, and acceptance of people.

We must teach tolerance and respect for people from within our community to the most remote parts of the world. We must stress positive ideals and attitudes.

People should not allow any chemical substance foreign to their human physiological system to deliberately destroy their normal function. This danger is greater than the harnessing of atoms for destruction.

Today we must be concerned about our youth because without them there will be no tomorrow.

Upon graduation, continue to develop your mind and character through further education and continuous reading of books, magazines, etc. which will make you a more total, understanding person.

Mitchell Kuzdzal, Principal

Homecoming game and Sword Rally

It finally happened! After eleven long years, the Mighty Colts emerged victorious over their crosstown rivals, the Pacers. Throughout the game, the Colts set the pace, leaving no offensive opportunity for the weakening Pacer line up. Running backs Darryl Tiggle and Russ King led the Colts' offense. Comp's 28-7 victory surprised many people, but Comp's always supportive fans anticipated the win after years of drought. The Pacers quenched the Colts' seemingly perpetual thirst.

Thanksgiving day game

This proved to be the year of the Colts as they emerged victorious in their 22-17 win over the Tigers on Thanksgiving Day. The Comp football team finally beat South Hadley for the first time since the Thanksgiving Day tradition began four years ago. Before the game, many Colt fans enjoyed a pancake breakfast sponsored by the Student Council and the Comp Booster Club.

The Christmas Cotillion, sponsored by the Junior and Senior classes, was held on January 5th. The dance entitled "Almost Paradise" took place at Storrowtown Theater's Carriage House. The crowd of over 200 people enjoyed one of the three meals offered; sirloin, scrod, or ham. Everyone admitted it was a perfect evening as the band, Who's Who, ended the night with "Wonderful Tonight."

May I have this dance?

We get you because we're
FAST
We keep you because we're
GOOD

At Jiffy Lube, for one low price in just 10 minutes without an appointment, we change your oil with a major brand, add a new oil filter by Purolator, lubricate your car, top off its 7 vital fluids, inflate the tires, vacuum the interior and even wash your windows! Your car is 14 ways better driving out, than driving in.
